

Workshop on “Integrating Multimedia/Technology for Effective Classroom Presentation”

Organizer: Faculty of Education, University of Macau

Date : Friday 16 December 2016
Time : 16:00-18:00
Venue : Room E6 - 3093, Central Teaching Building
Language : English
Target Audience : Open to all UM academic staff and students

Dr. Gregory JOHNSON

Tenured Professor of Digital Media Technology and Department Coordinator at Polk State College in Florida, USA.

Dr. Gregory JOHNSON is a recipient of the 2016 Endowed Teaching Chair award, and in 2013, he received the Distinguished New Faculty award. Gregory has been an educator for more than 17 years and has a passion for the exploration of technology and education. In 2009, he graduated from the University of Central Florida with a Ph.D. in Education – Instructional Technology. He has several publications and professional presentations and enjoys learning from and collaborating with others on pedagogy and technology.

Abstract

Creating good lecture notes for classroom presentation requires significant time and effort for most instructors, especially those who lack design skills. Consequently, many instructors resort to using slide-based notes that incorporate copious amounts of text to aid lecture delivery and content dissemination. In this presentation, we explore the use of multimedia design principles in the creation and delivery of lecture notes in face-to-face course settings and offer practical recommendations for busy instructors.
