Note: A Complementary light lunch will be provided.

Speaker:

Prof Hoi Yan CHEUNG, Associate Professor in Faculty of Education, University of Macau.

Abstract:

This 3-hour session will help students understand more about giftedness and gifted students. This session will provide the definitions of giftedness, the characteristics of gifted students and their learning styles, and the methods for teaching gifted students. This session will include lecture, video watching and group discussion. Current undergraduate and graduate students who want to understand more about giftedness and who will be teaching gifted students may benefit from attending this 3-hour session.
