## Abstract

Currently thousands of students are unsatisfied with the policy of Services Agreement with Mainland China. They occupied the parliament and partly the government. There are clashes between the students and the riot police. This is the first time that Taiwan's parliament was occupied especially by students. The fear that this agreement could kill their jobs maybe the main reason of this incident. This is highly connected with their images of the Mainland. On the other hand KMT's policy is also accountable. The government should have done a better job to eliminate the negative impact of this Agreement.
