

# JOURNEY TO THE NORTH: LEARN VISUAL/ARCHITECTURAL/CULTURAL MAPPING

DR. PETER ZABIELSKIS, DR. MELODY LU, MR. RUI LEÃO AND DR. SHEYLA ZANDONAI

Please join us for a bus trip to the Northern District of Macau for the first stage of an anthropological research project on the transformation of public urban space. This activity is open to all. We will visit three different residential areas near the Border Gate: Triangle Park, the Bairro Tamagnini Barbosa housing project, and the area around the Lao Hon Market. Our ultimate goal will be to create cultural maps of these areas -- which will be explained on the bus. But right now as a first step we will be doing basic visual and physical documentation of the spaces, uses, buildings and shops in these areas -- through sketches and photographs. No experience necessary and the trip is free. Bring your camera! Learn about the ethics of doing field research, mapping techniques, and talking with residents for research. This project will continue next year and there may be opportunities to join in again later, but right now there is no obligation for any further participation.

**Date of Event: 25 Nov 2015 (WED)**

**Please meet in room G009 E-21 between 1:30 - 2pm for preliminary orientation. The bus leaves promptly at 2 pm from building E-21 and we plan to be back at UM at approximately 6 pm.**

To reserve a seat please e-mail Peter Zabielskis at [peterz@umac.mo](mailto:peterz@umac.mo) -- or just come to the lobby of E-21 before 2 pm to see if there are still seats available.
